**Departmental
Findings of Fact and Order
Air Emission License
Amendment #1**

After review of the air emissions license amendment application, staff investigation reports and other documents in the applicant's file in the Bureau of Air Quality, pursuant to 38 M.R.S.A., Section 344 and Section 590, the Department finds the following facts:

A. Introduction

FACILITY	Huhtamaki Foodservice, Inc. (Huhtamaki)
INITIAL LICENSE NUMBER	A-416-70-A-I
LICENSE TYPE	Administrative Revision
NAICS CODES	322222, 322299
NATURE OF BUSINESS	Molded paper products
FACILITY LOCATION	Waterville, Maine
INITIAL LICENSE ISSUANCE DATE	January 14, 2002
AMENDMENT ISSUANCE DATE	May 28, 2004
LICENSE EXPIRATION DATE	January 14, 2007

B. Application Classification

Huhtamaki has requested an Administrative Revision to their Part 70/Title V license in order to modify their NO_x stack testing schedule. Conditions (16)(F) and 25(D) of the original license required NO_x testing be performed on Boiler #5 by May 31 of each year. Conditions (16)(G) and 25(C) of the original license required PM stack testing be performed once every two years, with the next test required by December 31, 2004.

C. Administrative Revision Description

Huhtamaki plans to replace the burner tips in Boiler #5 during the summer of 2004, and has requested that the NO_x stack test date be aligned with the PM testing for the 2004 year only. This will allow the boiler to be tested with the new burner tips installed, thus providing a more accurate picture of emissions from the equipment at the facility. Additionally, running both the PM and the NO_x tests on the same schedule reduces test set-up costs for the company.

The Department finds that changing the testing schedule for the 2004 year only does not change the frequency of the required testing. Huhtamaki shall be allowed to delay NO_x testing beyond May 31, 2004, and shall test for NO_x concurrent with the 2004 PM testing by December 31, 2004. A written report of

the NOx emission test results shall be submitted by January 31, 2005. Huhtamaki shall be required to stack test for NOx and submit test results in 2005 and thereafter by May 31 and according to the original schedule.

ORDER

The following replaces Condition 16(F) of License A-416-70-A-I:

(16) Boiler No. 5

F. Huhtamaki shall perform annual NOx emission stack testing on Boiler No. 5 by May 31 every year (except for 2004). Huhtamaki shall submit a written report of the NOx emission test results and possible scenarios based on those results to reduce NOx emissions by June 30 each year (except for the 2004 test).

In 2004, Huhtamaki shall perform NOx emission stack testing on Boiler No. 5 by December 31, 2004. The written report of the NOx emission test results as described above shall be submitted by January 31, 2005.

Huhtamaki may apply to amend the license to reduce the frequency of stack testing upon successful compliance demonstration of two consecutive annual stack tests. [MEDEP Chapter 138]

3

**Departmental
Findings of Fact and Order
Air Emission License
Amendment #1**

The following replaces Condition 25(D) of License A-416-70-A-I:

(25) Boiler No. 5

D. Huhtamaki shall perform annual NOx emission stack testing on Boiler No. 5 by May 31 every year (except for 2004). In 2004, Huhtamaki shall perform NOx emission stack testing on Boiler No. 5 by December 31, 2004. [MEDEP Chapter 138]

DONE AND DATED IN AUGUSTA, MAINE THIS DAY OF 2004.
